DETAILED ACTION

1. The Examiner has carefully considered Applicant's amendment and accompanying remarks filed April 7, 2003. The double patenting rejections have been overcome.

Terminal Disclaimer

2. The terminal disclaimer filed on April 7, 2003, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 5,848,665 and 6,076,448 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Rexroad et al. (US 5,582,266). Rexroad et al. disclose a safety and debris net system. The yarns of the net are dipped in a solution which causes shrinkage. The netting system has sag control measure to prevent net sagging (col 1, ln 20-27). A plurality of C-ring fasteners are provided (col 2, ln 40); it should be noted that the Examiner is equating Rexroad's C rings to the adjustment bolts of the present invention. As shown in Figure 3, a frame surrounds the netting.

Allowable Subject Matter

5. Claims 6-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: no prior art was found to disclose the structural properties of claims 6-12.
